Teacher's Remote

Hitachi's TR01 is a remote control designed specifically for use in the education environment.

The Teacher's Remote is an ideal extra remote control for use with Hitachi's range of education projectors.

This infra-red remote control gives you full control of the projector without access to the menu functions. This ensures that your projector's set up cannot be accidentally changed.

Features Include:

- Full mouse control (via RS232 Control on projector)
- 10 buttons to control:
  - Power On/Off
  - RGB/Video Source
  - Freeze
  - Blank
  - Aspect Ratio
  - Volume Up/Down/Mute
  - Page Up/Down (via RS232 Control on projector)
- Security cord can be attached to help prevent accidental loss
